Yelora Smart Combustible Gas Alarm

This smart combustible gas alarm adopts extra low power consumption Zigbee wireless module. Used for detecting combustible gas leakage and preventing danger caused by gas leakage. Zigbee repeater, extend wireless transmission distance. Detector adopts high stability semiconductor gas sensor, with high stability, small sensitivity drift and many other features. Detector alarms while gas density in air exceed alarm level. It is applicable for kitchen or possible gas leaking indoor area.

SPECIFICATIONS

Input Supply	AC 100-240V 50Hz/60Hz
Average Power	≤1 .5W 230V AC
Protocol	Zigbee
Alarm Sensitivity	6%LEL±3%LEL (natural gas)
Alarm Sound Pressure	70dB/1m
Warm-Up Time	2-3 minutes
Wireless Networking Distance	≤70m (open area)
Working Temp:	-10°C to 50°C
Size	79*68*31mm (not including plug)
Operating Humidity	≤95%RH(no condensation)
Aplication	Aurealife

DIMENSIONS

Ordering

Product code	Finish
AUR-IOT-GLS-METH-YELORA-SOC-W	SOC-Socket Mount W-White

FEATURES & BENEFITS

- Natural gas CH4(Methane) leak
- App Control
- Power Socket options
- Smart and Fashion design
- Zigbee Mesh
- Mains power repeater function
- Wall/Floor/Celing Mounting
- Sensor parameter adjustable
- Push Notifications
- High Steability
- Zigbee 3.0
- Easy Networking
- Testing Button
- Status Indicator
- Fire retardent Body

Quick Reference

- *Easy mounting
- *Voice control optional
- *Quick control
- *Alarm and Indications
- *Zigbee communications
- *High environmental Steability.

WARRANTY

1 years Warranty

ACCESSORIES N/A

(No Accessories required)

WIRING INFORMATION

UK Plug Standarded

US/Universal Optional

**Refer specification sheet before install and configurations
